

--FOR IMMEDIATE RELEASE --

BioScreen Strengthens Clinical Division Technical Staff

Torrance, CA- September 30, 2006 – BioScreen Testing Services, a leading provider of testing services according to cGMP/GLP/GCP and international guidelines for over 20 years, announces the addition of key team members to its Clinical Services Division in Phoenix, AZ.

Hemali Gunt Ph.D. joined BioScreen after completing both Master's and Doctorate degrees in Pharmaceutical Sciences at the University of Cincinnati, Ohio. Dr. Gunt has presented papers and posters at various national and international industry meetings, and was awarded best poster award at the Society of Cosmetic Chemists meeting (2002 and 2006). At BioScreen, Dr. Gunt will continue to focus on research in the clinical arena, in addition to overseeing clinical trials for evaluating safety and efficacy of personal care products. Dr. Gunt was also awarded a Clinical Research Professional Certificate from Raymond Walters College, Cincinnati, Ohio.

Randall Wickett, Ph.D., Clinical Scientist; Dr. Wickett is the Professor and Director of the Cosmetic Science Program in the College of Pharmacy at the University of Cincinnati. Dr. Wickett has entered into a consulting agreement with the company. Dr. Wickett holds a Ph.D. in biophysics from Oregon State University and a B.A. in Chemistry from Western Washington State College. He has published more than 80 papers in scientific journals and is regularly invited to present on topics such as bioengineering, skin physiology and evaluation of skin care products.

The company has created a uniquely focused business model providing contract testing services for companies in FDA regulated industries, where cGMP/GLC/GCP compliance is of primary concern. BioScreen has succeeded by closely working with each client, providing both the technical expertise needed to be successful with every project, including the customer service that clients deserve and expect.
